Education

B.E(CSE) , CGPA: 7.57 , *Government Engineering College ,Chamarajanagara* ,

Diplama, Percentage: 74.4 , *Aryabharathi polytecnic ,*Tumkur,

SSLC , Percentage: 66 % , *Government High School Changavara*.

Personal details

Name	**:**	Shankar D
Date of Birth	**:**	23-Feb-2003
Father's name	**:**	Doddakariyappa
Address	**:**	Bettappanahalli , Changavara post , SiraTaluk and Tumkur District - 572135
Languages Known :		English ,Hindi and Kannada

Projects

Cyber attack prediction using machine learning to Gen AI(Major project)

- Developed an intelligent cybersecurity system that predicts potential cyber attacks using Machine Learning algorithms and enhances threat analysis with Generative AI. The system analyzes network traffic, detects suspicious activities, classifies attack types, and generates automated security insights for faster decision-making.
- Technologies: HTML, CSS, Javascript, Python, Scikit-learn, TensorFlow, XGBoost.

Weather prediction System (Minor Project)

- Developed a Weather Prediction System that forecasts weather conditions such as temperature, humidity, rainfall, and wind speed using Machine Learning techniques. The system analyzes historical weather data, identifies patterns, and predicts future weather conditions to support planning and decision-making..
- Technogies: HTML,CSS, Java Script.

Internship

Company name : Inventeron Technologies and Business solution LLP , Bengaluru

I gained practical knowledge in Worked as a Full Stack Developer Intern, contributing to the design, development, testing, and deployment of web applications. Gained hands-on experience in both frontend and backend development, database management, and software development practices.

Project

Hospital management system

Developed a Hospital Management System to streamline hospital operations, including patient registration, appointment scheduling, doctor management, billing, and medical record maintenance. The system improves efficiency, reduces manual paperwork, and provides centralized management of hospital data.

Technologies Used: HTML, CSS, Java script, Python, MySql, Git, GitHub.

Technical Skills

HTML| CSS |Java Script | React | Python | J a v a

Tools and AI Tools

MySql | Github | chatgpt | gemini AI |

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place: Bengaluru
