Shivanand Devakate

Data Scientist · Generative AI Developer

+91-8217603116 — shivananddevakate2@gmail.com — LinkedIn — GitHub — Portfolio

Education

Government Engineering College, Chamarajanagar **2022 – 2026**
Bachelor of Engineering in Computer Science & Engineering *CGPA: 7.4 / 10*

Chaitanya Science PU College, Vijayapura **2020 – 2022**
Pre-University Education (PCMB) *85%*

BLDE Primary School, Tikota **2017 – 2020**
Secondary School Leaving Certificate (SSLC) *81%*

Experience

QSpiders **Jan 2025 – Present**
Data Science Intern *Bangalore*

- Built predictive analytics and AI-based solutions using Python and Machine Learning techniques.
- Worked on preprocessing pipelines, visualization workflows, and deployment concepts.
- Implemented machine learning models on real-world datasets for optimized predictions.

YHills **2024**
Data Preprocessing Intern *Remote*

- Worked on data preprocessing, feature engineering, and model validation workflows.
- Analyzed datasets using Pandas and NumPy libraries for ML applications.

Projects

AI Nutrition Detection System | *YOLOv8, FastAPI, Streamlit, NLP* **2025**

- Built an AI-powered food detection and nutrition analysis system using YOLOv8 Computer Vision techniques.
- Integrated FastAPI backend and Streamlit interface for real-time inference and calorie analysis.
- Utilized NLP and Gensim for intelligent food recommendation workflows.

YouTube Video Q&A RAG System | *ChromaDB, Whisper, FFmpeg, yt-dlp* **Ongoing**

- Created an intelligent semantic search and document retrieval system using Retrieval-Augmented Generation pipelines.
- Implemented video-to-text workflow using yt-dlp, FFmpeg, Whisper AI, and ChromaDB.

Bengaluru House Price Prediction | *Python, Scikit-learn, Streamlit* **2025**

- Developed a real-time machine learning platform for Bengaluru house price prediction.
- Applied preprocessing, feature engineering, and model optimization techniques.

Technical Skills

Languages Python, SQL

Technologies / Frameworks Pandas, NumPy, BeautifulSoup, Requests, OpenCV, Transformers, Gensim, Streamlit, FastAPI, ChromaDB, Seaborn, Matplotlib, SQLite3, PostgreSQL, YOLOv8, Whisper AI, TensorFlow/Keras, Scikit-learn, FFmpeg

Developer Tools Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Concepts Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, RAG, Feature Engineering, Model Evaluation, EDA, Semantic Search

Certifications

- **Infosys Springboard** — Python Full Course Certification
- **YHills** — Data Science Internship Certification
- **CodeWithHarry** — Programming Fundamentals Certification

Extracurricular Activities

- Participated in Kho-Kho Division Level competitions.
- Attended 5+ hackathons focused on AI, Machine Learning, and Software Development.
- Interested in Video Editing and Creative Content Design.
